550+ SERVICE CENTERS NATIONWIDE

INDUSTRY-LEADING WARRANTIES

EXPERT TECHNICAL SERVICE

WHY CHOOSE JET INDUSTRIAL

SERVING THE TOUGHEST INDUSTRIAL NEEDS FOR MORE THAN 50 YEARS, JET® IS PROUD TO PROVIDE A FULL LINE OF INDUSTRIAL TOOLS DESIGNED TO MEET THE NEEDS OF THE MOST DEMANDING TRADESMEN. FROM THE SHOP, TO THE WAREHOUSE, TO THE JOBSITE, JET TOOLS ARE ENGINEERED TO BE DURABLE, RELIABLE AND SAFE.

THE JET ADVANTAGE

From the moment you start working with JET, it's easy to see what makes us different. At every level of our organization, we're end-user focused. We're constantly striving to provide a better experience for anyone who uses JET products. We have wide offerings of products to cover the many jobsite challenges our users face. We continue to look to innovate to make our tools safer, and more durable, and we're committed to continuing these practices for years to come.

INDUSTRY LEADING WARRANTIES

All JET Machines and Equipment are backed by industries most comprehensive warranties. Refer to each individual category for complete warranty information.

THE INDUSTRY'S MOST DEPENDABLE SERVICE AND SUPPORT GUARANTEE

RELIABILITY

- U.S. Customer Service
- Industry-Leading Warranties

EXPERTISE

- U.S. Tech Support
- Authorized Service Centers Throughout the U.S.

DEPENDABILITY

- Extensive Online Resources
- 40,000+ Unique Parts In Stock

GET PARTS FAST

JET has more than 40,000 parts in stock and ready to ship within 24-48 hours. Our parts are built with the same precision processes as all of our machines. When you buy a genuine JET part you can be sure they'll get your machine back up and running fast. JET Product Manuals are readily available to download from our website to help you quickly identify the replacement parts you need.

REAL-TIME TECH SUPPORT

JET provides real-time technical service from our Tennessee offices. Our team has decades of experience using, servicing, and troubleshooting our machines. Call our tech service hotline if you need help with the following:

- Product Setup and Adjustment
- Application-Based Problem Resolution
- Service Call Support
- Warranty & Parts Support

FOR MORE INFORMATION CALL US TOLL FREE 1-800-274-6848 OR VISIT JETTOOLS.COM/REDASSURANCE

NEW PRODUCTS

NEW MACHINES. NEW LOOK. SAME ATTITUDE.

JET is constantly developing innovative products that meet or exceed the highest standards in speed, precision, durability, and safety. Be sure to check out all the latest products introduced by JET highlighted throughout the flyer.

PITTSBURGH TYPE LOCKFORMER

- All steel forming head with hardened and ground shafts
- Case hardened steel forming rolls, machine cut gear for long use
- Needle nose roller bearings for years of precision use
- Reinforced undercarriage for damage free lifting with a fork lift
- Following strict guidelines and electrical requirements, this JET Lockformer is CSA/US certified
- Magnetic Switch for motor protection
- Toolless roller cover panel for easy access
- Onboard tool storage tray

SAWING

NEW

13" x 23" SEMI-AUTO DUAL MITERING BANDSAW

- Heavy-duty construction reduces vibration and deflection
- Built-in, self-propelled blade brush prevents chip build up in blade guides
- Blade tension gauge helps to ensure the blade is in the correct cutting position
- Magnetic starter for low voltage and lost phase protection
- Automatic blade breakage sensor detects accidental breakage and interrupts the power
- Power switch with safety key prevents accidental start up
- Following strict guidelines and electrical requirements, this JET saw is CSA/CUS certified

7" x 12" INDUSTRIAL BANDSAWS

DURABILITY

- Blade drive is a belt to sealed, hardened and ground gear drive system
- Heavy cast iron bow and bed
- Improved wider stand with built-in storage cabinet and chip tray
- Blade wheels are made flanged cast iron

SAFETY

- Following strict guidelines and electrical requirements, these JET Industrial Bandsaws are CSA/CUS certified
- UL listed switches
- Blade tensioning guides
- Auto shut-off after cut
- Cast mounted hydraulic downfeed for ease of cut

EASE OF USE

- Leveling feet & two 8 rubber wheels for ease of movement
- Tool-less quick change vise, miters to 45 degrees
- Tool-less quick lock vise with preset mitering positions at 15°, 30°, & 45° (414560)
- Multi-position blade guide enhances use in vertical position by increases the throat capacity from 4 to 8" and creates a safer working position (414560)
- Side-eccentric shaft with ball bearings and rear-ball bearing blade guides
- Adjustable hydraulic downfeed system
- Large 10" x 12" infeed table assembly extends the support area and can be used in either horizontal or vertical positions (414560)

MILLING

NEW

12" x 54" VARIABLE SPEED MILLS

FEATURES

- Meehanite Castings
- Precision honed and bored milling head
- High precision class 7 spindle bearings
- Quick Spindle feed nut
- Three-stage power downfeed w/ automatic stop
- Heavy-duty spindle brake
- Precision hardened and ground ways and table
- Three precision ground t-slots
- Turcite B on X & Y Axis
- Adjustable gigs throughout
- Following strict guidelines and electrical requirements, these JET Mills are CSA/CUS certified
- Spindle guard protect user from flying debris
- Spindle brake for rapid stopping of the spindle
- Automatic lubrication every 180 minutes with a flow of 3-6CC reduces maintenance

CNC VERTICAL TURRET MILLING MACHINES

- Follow the menu prompts to easily create, edit, reverse, delete, or copy program steps with MillPWR package
- Tool Offsets and Tool Library
- Jog Control, move quickly from one location to another—using one axis at a time or any two axes simultaneously
- 3D contouring feature allow the ability to import and run G-code files from CAD/CAM programs
- Easily manipulate programs to save time and reduce program steps
- 10" flat panel, vivid, color, LCD display to view immediate graphic feedback
- Info Button, built-in help screens for content specific job
- Built-in Calculator, perform standard, trig, and geometry calculations and transfer them directly into part programs

\$24,999.00

SAVINGS

STOCK NO. 690938

Your Mill arrives completely cleaned and shop ready. For additional details visit jettools.com/service-and-support

FEATURES

- USB + Ethernet Compatible
- Simplified navigation that eliminates multiple menu screens
- Upgrades available for all legacy MillPWR models
- 12.1" High Resolution Display with 3D graphics
- 1 GHz Processor
- Available offline software
- Estimated runtime features
- Expanded tool/Datum Offsets

VARIABLE SPEED MILLING MACHINES

FEATURES

- Certified Meehanite® castings provide uniform soundness, consistent physical and mechanical properties and dependable performance
- Chrome lead screws on X and Y axis
- Turcite B on X and Y axis
- Precision bored and honed milling head
- High precision Class 7 spindle bearings
- No Fuse breaker power connection
- Hardened and ground table
- Satin chrome finished dials
- Large diameter quill is chromed
- Spindle head is internally cooled
- Heavy-duty motor drive
- Chrome plated motor shaft with bearing support at end
- One-piece quill pinion and shaft

STANDARD EQUIPMENT

- One-shot lubrication system
- Way covers
- Draw bar
- Tool box with tools

EVS MILLING MACHINES

FEATURES

- Certified Meehanite® castings provide uniform soundness, consistent physical and mechanical properties and dependable performance
- Precision honed and bored milling head
- High precision class 7 spindle bearings
- Spindle head is internally cooled
- Quick Spindle feed nut
- One-piece quill pinion and shaft
- Three-stage power downfeed with automatic stop
- Heavy-duty spindle brake
- Precision hardened and ground ways and table
- Turcite B on X & Y Axis
- Adjustable gibs throughout
- Following strict guidelines and electrical requirements, these JET Mills are CSA/CUS certified
- Spindle Guard
- Electrical Box with 115V outlets
- Internal coolant tank built into casting base
- Automatic Lubrication every 30 minutes with a flow of 3-6cc reduces maintenance
- Inverter Drive System and Emergency Stop located on a Swing Away Control Arm moves all major functions within the Operators reach
- JET exclusive new casting provides the end-user an easier solution to leveling the machine without raising it up off the floor

VARIABLE SPEED MILLING MACHINES

\$7,999.⁰⁰

\$2,498.⁰⁰
SAVINGS

STOCK NO. 690182

FEATURES

- Certified Meehanite® castings provide uniform soundness, consistent physical and mechanical properties and dependable performance
- Precision bored and honed milling head
- Large diameter quill is chromed
- High precision Class 7 spindle bearings
- Chrome plated motor shaft with lower bearing support
- Spindle head is internally cooled
- Satin chrome finished dials
- Heavy-duty splined motor drive
- One-piece quill pinion and shaft
- Three-stage power downfeed with automatic stop
- Heavy-duty spindle brake
- Adjustable gibs throughout
- Internal coolant tank built into casting base for use with coolant system (Coolant pump not included)

STANDARD EQUIPMENT

- Locks on all movable surfaces
- Precision hardened and ground ways and table
- One-shot lubrication system
- Way covers
- Draw bar

R-8 SPINDLE

BUY A JET MILL AND GET A
FREE 1-2-3 BLOCK SET
IN CASE (630400)
A \$29.99 VALUE

Your Mill arrives completely cleaned and shop ready.

JTM-1/2 STEP PULLEY MILLING MACHINES

\$6,999.⁰⁰

\$2,286.⁰⁰
SAVINGS

STOCK NO. 690082

FEATURES

- Certified Meehanite® castings provide uniform soundness, consistent physical and mechanical properties and dependable performance
- High precision Class 7 spindle bearings
- Heavy-duty splined motor drive
- Three-stage power downfeed with automatic stop
- Precision bored and honed milling head
- Large diameter quill is chromed
- Spindle head is internally cooled
- Satin chrome finished dials
- One-piece quill pinion and shaft
- Heavy-duty spindle brake

STANDARD EQUIPMENT

- One-shot lubrication system
- Way covers
- Draw bar
- Tool box with tools

MILLING/DRILLING MACHINES

FEATURES

- One-piece cast iron column for added support
- New positive quick-stop knob and easy-to-read internal depth gauge (external on JMD-15)
- Forward and reverse switch on JMD-18
- Belt cover – quick slide latch allows faster belt adjustment to change spindle speeds

STANDARD EQUIPMENT

- Worklamp
- Adjustable carbide facemill
- 1/2" drill chuck, chuck arbor
- Draw bar
- Drill chuck guard

20" EVS DRILL PRESSES

- Heavy-duty design allows a variety of precision drilling applications
- Steel column prevents column failures prolonging the life of the machine
- Heavy-duty casted head for more accuracy and rigidity
- Large precision ground T-slot production table for easy set ups
- Latest AC inverter variable speed technology
- CSA coolant system
- Spindle is supported by high quality ball bearings
- CSA/CUS: Following strict guidelines and electrical requirements, these JET Drills are CSA/CUS certified
- LED machine lamp delivers extra light for more precise drilling
- Spindle guard protects user from flying debris

17" & 22" INDUSTRIAL STEP PULLEY DRILL PRESSES

FEATURES

- Following strict guidelines and electrical requirements, these JET Drill Presses are CSA/CUS certified.
- LED machine lamp
- Spindle guard
- On/off switch located on front of the drill press head
- Spindle is supported by high quality ball bearings
- Heavy-duty construction
- Cast iron table and base
- Table ground for accuracy
- Large hand grips designed with the users comfort in mind
- Hinged metal belt and pulley cover coupled with quick adjustment motor mount allow rapid changing of spindle speeds
- Rotating, 45° tilting, crank-operated worktable with quick release clamp

RADIAL ARM DRILL PRESSES

- Gears and splined shafts are heat treated and ground nickel-chrome steel for maximum durability
- Spindle is case hardened steel for extra strength and wear resistance
- Double row taper roller, thrust ball bearings and radial axis bearings support the spindle
- Multiple speeds and feeds to make exotic materials easier to drill

25" JET/ARBOGA GEARED HEAD DRILL PRESSES

\$7,399.00

\$1,921.00
SAVINGS

STOCK NO. 354036

FEATURES

- Helical gears for smooth, quiet operation
- Quick release drill ejector
- English/Metric depth gauge
- Machined, T-Slotted base plate
- Head and table rotate 360° around column
- No-volt release prevents spindle start when power returns after shut down
- Steel column
- Extra long quill movement
- Adjustable taper bearings mounted in the end of the quill
- Fiber & steel gears which do not required oil bath and allows for easy speed changes
- Drill head and table can be raised and lowered

MADE IN SWEDEN

20" GEARED HEAD DRILL PRESSES

- Heavy-duty design allows a variety of precision drilling applications
- Easy to read internal depth gauge
- Calibrated fine down feed built-in
- Built-in spindle lock
- Head tilts left or right
- Easy accessible table raiser
- Large production table and T-slotted base
- Tool Kit

LARGE SPINDLE BORE LATHES

14", 16", 18", & 22" ZX SERIES

- 3-1/8" bore spindle is supported by two tapered and one ball bearing
- Chrome molybdenum headstock gears are hardened, ground, and shaved
- One piece cast iron base absorbs vibration allowing for heavier cuts
- Universal gearbox allows inch, metric, diametral, and module pitch threads, no change gears required
- Meehanite® Castings
- Siemens Electric

STANDARD EQUIPMENT

- 10" 3-jaw scroll chuck with top reversing jaws
- 12" face plate
- 5pc. Quick change tool post set
- Follow rest
- Large capacity steady rest with ball bearing tips
- Fully integrated coolant system
- Full length splash guard and coolant return
- Large easy to use foot brake
- Articulating LED work lamp
- Electronic Chuck Key Holder

13" x 40" GEARED HEAD BENCH LATHE

- Enclosed gearbox design provides smooth, quiet operation
- Hardened and ground gears are featured in the headstock and gearbox
- V-way bed is induction hardened and ground
- Gap bed section provided for large diameter work
- Adjustable gibs are incorporated in the carriage and slideways
- Fast, easy speed changes
- D1-4 spindle is precision ground for accuracy and supported by high quality tapered roller bearings
- Headstock is constantly oiled during operation
- Gear box gives wide inch threading and feed capabilities with no gear changes
- Independent leadscrew and feed rod
- Spindle actuation control is apron mounted
- Compound and cross slide have backlash adjustment
- Tailstock may be offset for turning tapers and includes an inch/metric graduated quill

STANDARD EQUIPMENT

- Coolant tray
- 6" 3-jaw direct mount scroll chuck with top reversing jaws
- 8" 4-jaw independent chuck
- 12" faceplate
- Four-way tool post
- Fitted rubber mats

13" x 40" BELT DRIVE BENCH LATHE

- Enclosed gearbox design provides smooth, quiet operation
- Fast, easy speed changes
- Helical cut headstock gears reduce noise
- V-way bed is induction hardened and ground
- Gap bed section provided for large diameter work
- Low voltage motor controls
- Changes gears allow metric threading
- Spindle is supported by precision tapered roller bearings
- Independent leadscrew and feed rod
- T-slotted compound slide with four-way tool post
- Carriage mounted spindle control lever
- Automatic feeding and threading are fully interlocked
- Tailstock may be offset for turning tapers and includes an inch/ metric graduated quill

STANDARD EQUIPMENT

- Coolant tray
- 6" 3-jaw direct mount scroll chuck with top reversing jaws
- 8" 4-jaw independent chuck
- 12" faceplate
- Four-way tool post
- Steady and follow rest
- Metric change gear
- Centers with headstock center sleeve
- Threading dial
- Micro Carriage Bed Stop
- Full Length Splash Guard
- Tolerance test certificate
- Tool box with tools

INDUSTRIAL AIR COMPRESSORS

FEATURES

- Cast iron pumps for increased durability and longer life
- ASME-certified tanks meet strict testing and inspection standards
- Built-in safety valve and pressure switch for safe operation
- Industrial-duty motors for reliable performance
- Fully enclosed metal belt guard assures safe operation
- Weather-resistant power-coat finish
- Open feet design for easy tank draining

60 GALLON VERTICAL TANK

- 135 PSI maximum operating pressure for general shop applications
- Single Stage, cast iron pump for durability

80 GALLON VERTICAL TANKS

- 175 PSI maximum operating pressure for applications requiring higher air capacity and pressure
- Two-Stage, cast iron pump design delivers higher pressure and increased air delivery

STOCK NO. 505480

1HP DIE GRINDERS FEATURES

MODELS (505480, 505481)

- 1 HP motors provide the power needed for harsh industrial environments
- Impact resistant composite housings reduce tool weight and user fatigue.
- 360° Rotating air inlet keeps the air hose tangle free for added safety
- Variable-speed throttle ramps up to maximum RPM, while the safety lock prevents accidental engagement
- 505481 features a 6" extended design for deep reach applications
- 1/4" Erickson collet Included
- Rear facing exhaust

MODELS (505482, 505483)

- 1 HP motors provide the power needed for harsh industrial environments
- Right-angle head design for reaching tight or angled grinding jobs
- Impact resistant composite housings reduce tool weight and user fatigue.
- Precision spiral bevel gears transfer torque and speed to spindle
- Tapered angle gear housing allows greater visibility of targeted work area
- 360° Rotating air inlet keeps the air hose tangle free for added safety
- Variable-speed throttle ramps up to maximum RPM, while the safety lock prevents accidental engagement
- Rear facing exhaust

SAND RAMMERS

FEATURES

BENCH MODELS (550600, 550601, 550602)

- Front end seal protect the piston from excessive dirt and debris extending tool life
- Fast powerful blows for compacting small, medium and large sand molds
- Heavy-Duty, industry proven valve design
- Ergonomic handle design to reduce operator fatigue
- All Steel cylinder housing for increased durability

FLOOR MODELS (550603, 550604, 550605)

- Front end seal protect the piston from excessive dirt and debris extending tool life
- Maximum power with slow, powerful blows for compacting large sand molds
- Highly efficient way to quickly compact all types of backfill and sand
- All Steel cylinder housing for increased durability
- Heavy-Duty, industry proven valve design

INDUSTRIAL DRILL

FEATURES

- Industrial geartrain for high torque drilling applications
- Twin bearing spindle design for added durability
- Ergonomic "D" style handle with inside teasing trigger
- Zerk® fitting for external lubrication
- 1/2" Keyed Jacobs® Industrial Chuck Included trigger
- Auxiliary handle can be mounted on either side for increased operator control

JHJ SERIES INDUSTRIAL BOTTLE JACKS

FEATURES

- Precision machined and polished cylinders provide non-abrasive, leak-free, durable performance
- Chrome-plated piston and ram are corrosion resistant for use in any industrial environment
- Hydraulic system is protected from damage by internal by-pass mechanism
- Heavy-duty base is electrically welded providing a stable platform
- Industrial-duty construction permits use in extreme climates
- Lifting, pushing, spreading, bending, pressing, or straightening capabilities
- Upright, horizontal, or angled operating positions increase versatility

NEW

LEVER HOISTS

JET's revolutionary single-piece brake design fuses three components into the safest and most durable brake system in the market. The JET fused brake design is the future of hoist safety.

JET is so confident of this design, it is backed by a lifetime replacement warranty.

JLH SERIES

SAFETY

- **NEW!** All JLH-Series Lever Hoists come with slip clutch style overload protection that prevents lifting or pulling damaging loads beyond the rated capacity of the hoist.
- **NEW!** JET's improved easy free chain design is a two-step, no load, free chaining system that allows for quicker hoist positioning and take up of slack chain that is engineered not to free chain under load.
- **NEW!** Innovative, progressive offset handle design that allows for extra clearance between the operator's hand and load chain.

DURABILITY

- Grade 100, corrosive resistant plated load chain is a smaller, more compact link that is 20% stronger than Grade 80 load chain.
- Cast-steel safety latches are secured with Allen screws and lock nuts, the will not bend out of compliance with lifting regulations.

JLP-A SERIES

SAFETY

- **NEW!** Innovative brake wear indicator provides a visual indication when the friction disks are worn and need replacing.
- Weston Style, double ratchet pawl brake splits the load to opposite sides of the ratchet gear for greater load security and increased safety.
- Alloy steel hooks rotate 360 degrees for easy rigging applications, and slowly stretch to indicate an overload situation.
- **NEW!** Redesigned ergonomic grip allows for greater operator control and increased comfort.

DURABILITY

- **NEW!** Secured with Allen screws and lock nuts, the cast-steel safety latches are more durable than stamped steel latches and will not bend out of compliance with lifting regulations.
- Grade 80 black oxide coated load chain for added durability.
- Needle bearings support the load sheave to increase efficiency and promote smooth operation.
- Impact resistant all steel construction for added durability and protection.

L-100 SERIES HAND CHAIN HOISTS

SAFETY

- Backed by a lifetime replacement warranty, JET's revolutionary single-piece brake design fuses the three components into the safest brake system in the market
- Overload protected models feature a slip clutch style overload protection that prevents lifting or pulling of damaging loads beyond the rated capacity of the hoist
- Once triggered, the overload protection can be reset on site
- Weston style double ratchet pawl brake design splits the load to opposite sides of the ratchet gear for greater load security
- Industrial rated alloy steel hooks rotate 360 degrees for easy rigging and slowly stretch to indicate an overload situation

DURABILITY

- Grade 100, corrosive resistant plated load chain is a smaller, more compact link that is 20% stronger than Grade 80 load chain
- Secured with Allen screws and lock nuts, the cast-steel safety latches are more durable than stamped steel latches and will not bend out of compliance with lifting regulations
- Intended for the harshest environments, the heat treated load plates and case hardened corrosive resistant internal parts extend the life of the hoist
- Double sealed ball bearings support the load sheave to increase efficiency and promote smooth operation
- Impact resistant all steel construction for added durability and protection
- The lightweight and smaller body design are ideal for confined areas and low headroom applications

STANDARDS

- This product complies with ANSI / ASME B30.16 and HST-2 Standards
- Load tested to 125% of capacity with certificate

S90 SERIES HAND CHAIN HOISTS

SAFETY

- The Weston style double ratchet pawl brake design splits the load to opposite sides of the ratchet gear for greater load security and increased safety
- Alloy steel hooks rotate 360 degrees for easy rigging applications, and slowly stretch to indicate an overload situation

DURABILITY

- Grade 80 black oxide coated load chain for added durability
- Intended for the harshest environments, the heat treated load plates and case hardened corrosive resistant internal parts extend the life of the hoist
- **NEW!** Secured with Allen screws and lock nuts, the cast-steel safety latches will not bend out of compliance with lifting regulations
- Needle bearings support the load sheave to increase efficiency and promote smooth operation
- Impact resistant all steel construction for added durability and protection
- Smaller body and lightweight design for low headroom applications and use in confined areas

STANDARDS

- This product complies with ANSI / ASME B30.16 and HST-2 Standards
- Load tested to 125% of capacity with certificate

WOODWORKING

JET makes all of its woodworking machines with the enthusiast in mind. Designed to allow woodworkers to do more in their shops, these tools are engineered with features that bring out the best work in every woodworker. From Air Filtration to Table Saws and everything in between, JET has the full line of tools that you want in your shop

DC-1100VX AND DC-1200VX VORTEX CONE® DUST COLLECTORS

- Industrial-quality construction effectively handles collection of wood chips and sawdust
- Quick-install collection bag makes emptying and re-attaching a snap
- Single-stage design for economical and quiet operation
- Includes four casters for maneuverability and total portability

OSCILLATING SPINDLE SANDER

- Baffles create a chamber under the table for improved dust collection
- 4" dust port connects to your dust collection system to keep your work area clean
- Spindle lock for quick and easy spindle changes
- Table tilts 45° front and 15° back and features a 90° quick index
- Integrated storage provides designated slots for spindles and table inserts
- Sealed access door minimizes dust in the storage area
- 1-1/2" oscillating action reduces friction heat to protect wood and prolong sleeve life
- Main spindle support runs on precision ball bearings and is oscillated by a heavy-duty worm and gear mechanism for consistent performance
- Integrated paddle switch with safety key
- Powerful 1HP motor is independently mounted inside the base for easy access and service
- Includes 1/4", 3/8", 1/2", 5/8", 3/4", 1", 1-1/2", 2", 3", and 4" spindle assemblies
